September 29, 2017 WATER RESTRICTIONS LIFTED

Dear Dayton Water Customers:

Grade 1 Water Restrictions are hereby withdrawn. With compliance from the community, the City's Ferry Street reservoir has been able to get back to more regular cycling and water production is holding steady. The City is now able to meet the water demands of the community without the need for restrictions. The City continues to encourage water conservation. Conservation tips and other information can be found on the City's website at www.daytonoregon.gov.

This Notice removes all water restrictions from Dayton water customers. The City of Dayton continues to strive to provide quality water services and meet the water demands of the community, and we appreciate the community's support of the restriction measures taken over the past 2 months. Please contact City Hall if you have any questions.

Thank you for your support and cooperation while water restrictions were necessary.

Scott Pingel, City Manager
City of Dayton
